Personal / Home Office Shredders	Small Office	Commercial	Autofeed	High Security
When it comes to the best paper shredder for individual users at home, Fellowes offers reliable, long lasting identity theft prevention. Every small paper shredder from Fellowes delivers powerful shredding performance for all your confidential documents.	The best shredder for any small office or home office includes powerful paper jam prevention, safety features and quiet shredder performance.	Large offices need heavy duty paper shredders to meet large volume document shredding with multiple users. Every Fellowes commercial shredder is engineered to deliver secure shredding for businesses that rely on large capacity shredders for identity theft protection.	Make document shredding more productive and convenient with Fellowes automatic paper shredders. Shred paper, staples, credit cards and paper clips automatically. Improve office shredder productivity with auto feed shredders for large and small offices.	Because every high security government/consular office requires a office shredder that is micro cut compliant, Fellowes offers paper shredders to meet these strict security standards. Whether for a small or large government office, Fellowes offers strip-cut shredders, cross-cut shredders, micro-cut shredders and high security shredders that are government approved.
